## > SPIDER EVOLUTION FRONT DISC COVER

### TECHNICAL CHARACTERISTICS

The most advanced and innovative disk cover currently available on the market, made exclusively by Acerbis. Its unique mounting system utilizes a central aluminum mounting system that replaces the bike's wheel spacer and allows all maintenance jobs such as tire changing or brake pad replacement to be done without having to remove the disk cover.

### SPIDER EVO FRONT DISC COVER IN CARBON FIBER

Front disc cover made in 100% carbon fiber and used by official Rinaldi Yamaha Factory Team/Stefan Everts and Cedric Melotte. It is adaptable for disc brake dimensions up to 275mm, using the standard mounting kit for the Spider Evo in plastic.

- Weight saving of up to 35% compared to the traditional model
- Total protection for the front brake rotor
- Machined aluminum flange and insert
- Double resin thermoplastic disk cover with a strong nylon center insert and polypropylene external spoiler
- Disk cover fixed to the flange with self-locking nuts and counter sunk head screws
- Suitable for brake disks up to a diameter of 275 mm
- Plastic part available separately with 6 color combinations
- Extremely easy to mount

# UNIVERSAL PLASTICS

## > VENTED FRONT NUMBER PLATE

### TECHNICAL CHARACTERISTICS

Hot temperatures always decrease motor performance: thanks to the front number plate inferior spoilers, the air is direct to the radiators with benefits in term of cooling. Due to this feature the rider has the chance to obtain always the best from his bike.

### Used by the best Teams/Riders:

- Kawasaki Factory Team USA (J. Stewart - M. Byrne)
- Suzuki Factory Team USA (R. Carmichael - I. Tedesco)
- Kawasaki Factory Team De Groot (T. Leok - S. Sword)

## > FLAT NUMBER PLATE/CABLE GUIDE

### TECHNICAL CHARACTERISTICS

#### FLAT NUMBER PLATE

Universal design mounts any bike with traditional forks. You can drill holes, zip tie it or whatever to fit any bike.

#### CABLE GUIDE

Bolts to front number plate; keeps brake hose aligned. A must have when you buy aftermarket triple clamps that do not have a mount for the stock cable guide.

## > TECNİK FRONT FENDER

### TECHNICAL CHARACTERISTICS

The new universal fender is made of polypropylene and constructed in two parts, joined with safety screws. This characteristic allows for quick and easy removal and replacing of the front part without having to work on the central body that remains fixed to the bike. Designed to guarantee optimal air flow because of the rear ventilation system. In addition, it maintains a low weight of 575gr. This model is available in various colour combination matching the top motorcycle brands.

## > SUPERMOTO EVO FRONT FENDER

### TECHNICAL CHARACTERISTICS

This product is a result of our R&D department's focus on supermotard.

Exploiting the reduced diameter of the front wheel a sophisticated venting system allows fresh air to flow over the radiators. The result is optimal bike performance, even in extreme hot weather conditions.

- Front fender constructed in two parts, joined with safety screws
- Easy disassembly of the rear section without the need to remove the front section
- Perfect for a use in hot and dry weather conditions.
- Material: Polypropylene
